Subject: Weekly Report of Federal Facilities & Site Cleanup Branch/Immediate Office for the Week of 12/09/2016

Highlights of Past Week

Hunters Point Naval Shipyard, San Francisco, CA: On December 7, EPA and other regulators joined a scoping meeting to discuss the technical and community involvement needs to develop a workplan to evaluate past radiological sampling by Tetra Tech EC, Inc. The Nuclear Regulatory Commission recently concluded an enforcement action against the company because its employees deliberately falsified radiological soil samples. In the evening, EPA will participate in a community meeting about a proposal to change the land use for much of Parcel G from industrial to residential. San Francisco had hoped the 49ers football team would build a stadium there, but that fell through, so the City/County want to build housing instead. On December 15, Superfund Division Director Enrique Manzanilla will join the Navy and State regulators in a meeting called by San Francisco Mayor Edwin Lee and Supervisor Malia Cohen about the Tetra Tech EC, Inc., issue. Significant Items for Next Week

Press Stories, Significant Policy, Regulatory, or Legal Actions (2-3 Weeks Out)

Grant Announcements

Legislative Engagement

Travel, Public/National Meetings, and Speaking Engagement for Division Director

Speaking Engagements: Dante Rodriguez gave a talk at Bishop O'Dowd High School in Oakland, CA, as part of the school's "Sustainability Speaker Series." Dante spoke about the history of environmental pollution,

federal environmental laws, the Superfund Program, and case studies of specific Superfund sites.

Training: The Floor team for the 10th floor, consisting of Dante Rodriguez, Andy Bain, Chris Dirscherl, Elaine Chan and Charnjit Bhullar, conducted a radio check and participated in the annual floor team training. The radio check confirmed that the 10th floor radios are in working order and the team was able to communicate across the floor, between floors, and outside the building. The floor team training was presented by Hines and is a required annual event. The training coincides with a fire drill scheduled for Thursday, December 8. (Contact: Dante Rodriguez, x2-3166)

30-60 Day Outlook

Other Information

Internal to Region 9

Anaconda Site-wide: The site team, including RPMs, Superfund management and Regional Counsel, prepared for and conducted a briefing for the Regional Administrator regarding an upcoming meeting between the RA and Nevada DEP. The topic of the meeting is a proposal by Atlantic Richfield to pay for the operable unit 8 remedy. (Contact: Dante Rodriguez, x2-3166)

Internal to Division

Air Force signs Settlement with City of Tucson for TARP (Tucson, AZ): The Air Force signed a settlement agreement this week with the City of Tucson for the operation of the Tucson Airport Remediation Project which is a treatment plant designed to pump and treat TCE contaminated groundwater from the TIAA site. The plant also treats groundwater for use as public drinking water for about 6% of the City of Tucson water supply. The Department of Justice will arrange payment of 17M dollars from the Judgement Fund to cover the costs of the construction of TARP and past operating costs. This is the first of two settlements that are being negotiated with the Air Force. A second settlement will be negotiated later next year to cover additional costs and treatment of 1-4 Dioxane. (Contact: Mary Aycock, x2-3289)

Anaconda OU8: RPM Dante Rodriguez began preparations for the Regional Remedy Review Team (RRRT) to conduct a review of the Anaconda OU8 proposed remedy. Dante met with RRRT lead, John Chesnut, to initiate planning. Dante provided team members with the Proposed Plan. The review will take place on December 20. (Contact: Dante Rodriguez, x2-3166)
